When you create an account on a Terrano website, register your products, purchase a map update or product on a Terrano website, sign up for a newsletter, participate in promotional activities, or contact our product support personnel, we may collect a variety of Personal Information, which depending on the circumstances may include your name, mailing address, phone number, email address, and payment card information. We may use Personal Information about you for the following purposes:

- i. **Communications** We may communicate with you, such as to provide you with the products and services you request, to communicate with you about your account or transactions with us, to give you important information about your products or applications, and (consistent with applicable laws and the choices available to you as described in Paragraph 6 below) send you offers and promotions for our products and applications.
- ii. **Customer Support** When you interact with our customer support representatives via email, telephone or in person, we may collect Personal Information relevant to the situation, such as your name, mailing address, phone number, email address and contact preferences; information about the Terrano products you own, such as their serial numbers, date of purchase and (if applicable) event logs that are useful in diagnosing product or application performance related issues; and information relating to a support or service issue. We use this information to provide you with customer and product support.
- iii. **Purchases** If you provide your payment card information on a Terrano website or directly on your Terrano product, then Terrano will use your payment card information and related payment and account information, as well as your name and mailing

address if applicable, for the purpose of filling your purchases or collecting payment of recurring fees, if applicable.

- iv. **Promotions** If you enter into a sweepstakes, contest or similar promotion, we may use the information you provide to administer those promotions. To the extent that the terms and conditions of any such promotion regarding the treatment of Personal Information about you conflict with this Privacy Statement, the terms and conditions of the promotion will control.
- v. **Information Posted by Visitors** Terrano may make available through certain of our sites' services (for example, message boards, forums, chat functionality and blogs, among other services) to which you are able to post information and materials. Please note that any information you disclose through such services or otherwise on our sites may become public information, and may be available to visitors to the sites and to the general public. We urge you to exercise discretion and caution when deciding to disclose Personal Information, or any other information, on our sites. WE ARE NOT RESPONSIBLE FOR THE USE OF ANY PERSONAL INFORMATION YOU VOLUNTARILY DISCLOSE THROUGH THE SITES.

B. Other Information

"Other Information" is any information that does not reveal your specific identity or does not directly relate to an individual, such as: browser and device information, app usage data, information collected through cookies, pixel tags and other technologies, demographic information and other information provided by you, and aggregated information. Please note we may use and disclose Other Information for any purpose, except where we are required to do otherwise under applicable law. If we are required to treat Other Information as Personal information under applicable law, then we may use it as described in "Personal information" section above, as well as for all the purposes for which we use and disclose Personal information. In some instances, we may combine Other Information with Personal Information. If we combine any Other Information with Personal Information, the combined information will be treated by us as Personal Information as long as it is combined.

- i. **Server Log Information** We and our service providers use server log information for purposes such as calculating site usage levels, helping diagnose problems with Terrano's servers and administering Terrano's websites. These server logs may include information such as your Internet Protocol (IP) address, browser type, browser language, the date and time of your request, the time(s) of your visit(s) and the web page(s) that you visited. Collecting IP addresses is standard practice on the Internet

and is done automatically by many web sites. Please note that we treat IP Addresses, server log files, and related information as Other Information, except where we are required to do otherwise under applicable laws.

- ii. **Cookies and Other Technology** We may use cookies, pixel tags, web beacons, clear GIF's or other similar tools on our websites or in our email messages. These technologies help Terrano keep track of your movements within our sites, measure the effectiveness of advertisements, and compile aggregate statistics about site usage and response rates. They also help you to more smoothly navigate our websites. In addition, Terrano uses Google Analytics™ as a method of tracking site statistics and user behavior on many of our sites. We may also engage one or more third party service providers to serve online advertisements on our behalf. They may use a pixel tag to collect anonymous information about your visits to sites, and they may use that information to target advertisements for goods and services. This information is collected anonymously, in a manner that does not personally identify you.

If you do not want information collected through the use of these technologies there is a simple procedure in most browsers that allows you to automatically decline many of these technologies, or to be given the choice of declining or accepting them. In addition, if you reside in a jurisdiction that requires us to obtain your consent to use these technologies on our sites then you will have an opportunity to manage your cookie preferences on the sites; except that certain cookies are required to enable core site functionality and you cannot choose to disable those cookies.

We may use locally stored objects, also known as Flash cookies, in certain situations where we use the Adobe Flash Player to provide special content such as videos or video clips. Flash uses this technology to remember settings, preferences and usage similar to browser cookies but Flash cookies are not managed through your web browser.

Social Media Features and Widgets Certain of our sites may include social media features, such as the Facebook® Like button and widgets, (interactive mini-programs that run on sites). These features may collect your IP address, which page you are visiting on our site, and they might set a cookie to enable the feature to function properly. Social media features and widgets are either hosted by a third party or hosted directly on our sites. Your interactions with these features are governed by the privacy statement of the company providing the feature. Please note that we are not responsible for the collection, usage and disclosure policies and practices (including the data security practices) of other organizations, such as Facebook, Apple®, Google®, Microsoft®, RIM® or any other app, social media platform or wireless service provider.

- iii. **Framing** Some of our webpages may utilize framing and/or masking techniques to serve content from our partners while preserving the look and feel of our sites.
- iv. **Use of Apps** When you download and use apps, we and our service providers may track and collect app usage data, such as the date and time the app on your device accesses our servers and what information and files have been downloaded to the app based on your device number.
- v. **Single Sign-on** You can log in to certain parts of our sites using sign-in services, such as Facebook® Connect or an Open ID provider. These services will authenticate your identity and provide you the option to share certain personal information such as your name and email address to pre-populate the registration or log-in form. Services like Facebook® Connect give you the option to post information about your activities on certain parts of our sites to your profile page to share with others within your network.
